The Men Led into Fiume by
D'Annunzio Refuse to
Give Up Arms

PREMIER EXPRESSES
HIS DETERMINATION

Reinforcements for D'An-
nunzio Reported to Be
on the Way

Rome, Sept. 15.—General Bagdolia, deputy chief of staff of the Italian army, is on his way to Fiume, armed with full powers to cope with the serious situation that has arisen there since Captain Gabriele D'Annunzio, the Italian poet-aviator, led forces variously estimated to number from 2,300 to 12,000 men into that city last week.

According to latest advices, Captain D'Annunzio is still in Fiume. Detachments sent by General Robilant, commander of the sixth army corps, to disarm Captain D'Annunzio's men have refused to obey orders. This, according to a statement made yesterday by Premier Nitti, was "sedition," the premier adding that he was "determined to act in a manner that would avoid grave conflicts."

Reinforcements for Captain D'Annunzio's forces are said to be marching on Fiume, parts of the 6th regiment and cyclist corps being reported near the city. General Ferrari, commanding the Italian troops on the armistice line, has been ordered to prevent the forces from joining D'Annunzio.

HAS BROAD POWERS.

And General Bagdolia Has Already Arrived in Fiume.

Paris, Sept. 15 (Havas).—General Bagdolia, deputy chief of the Italian army, who has been given broad powers to meet the situation which has arisen in Fiume incident to the entry of the city by Captain D'Annunzio at the head of a large force of irregular troops, has arrived at Fiume, accompanied by General Aulossi, according to advices received here.

NEW PRESIDENT OF HONDURAS.

Dr. Francisco Bogran Has Been Named as Provisional Head.

San Salvador, Republic of Salvador, Sunday, Sept. 14.—Dr. Francisco Bogran has been named provisional president of Honduras pending the presidential election.

T. Sambola Jones, United States minister at Tegucigalpa, is reported to have sent a rather strong note to the revolutionary leaders, asking them to concentrate their forces in Tegucigalpa under the leadership of General Lopez Gutierrez, and calling upon the "patriotic citizens of Honduras" to unite in support of the government.

ROCHESTER

Rev. J. P. Marvin and family have rented Miss Jessie Morgan's house.

Mrs. H. H. Cushman spent last week with her brother and family in Montpelier.

Mrs. Hugh Kinsman and Mrs. Herman Kinsman from New York City are spending a month with relatives here.

There was a meeting at the town hall Tuesday evening, Sept. 16, to make plans for a public reception of the returned soldiers.

Misses Edith and Grace Bailey have gone to Poughkeepsie, where Miss Edith is to teach in the preparatory school and Miss Grace will attend the academy.

BIG PRESS MEETING

TO BE HELD AT SYDNEY

Newspaper Men from All Over the World
Are Expected to Gather There in
October of Next Year for the
Press Congress of World.

Sydney, Australia, Sept. 13 (Correspondence of the Associated Press).—The largest international assemblage of newspaper men ever gathered in any city in the world is expected at the Press Congress of the World, to be held here Oct. 15, 1920. Two hundred of them are expected to come from North and South America and delegates are expected from all portions of the British empire. Large parties of newspaper men in India, China and Japan have promised to be present.

In connection with the congress, routes for world tours are to be prepared by transportation agents acting in behalf of the New South Wales government and it is expected that large reductions will be made in passenger fares.

The congress is to follow a meeting of the British Empire Press union in Canada in September, 1920, and the delegates should arrive in Australia in the spring of the southern half of the world. This will permit visits to tropical Queensland before hot weather sets in.

The congress is likely to be engaged in business discussions at Sydney for about 10 days. Excursions in New South Wales are planned before and after the session and later visitors are to be given an opportunity to attend the yearly racing carnival at Melbourne during the first week in November. It is announced that everything possible will be done by the press and people of Australia to make representative men from foreign countries understand Australian and their methods of life.

Membership of the congress embraces all who are engaged in press work. It is proposed to divide the sessions here into a series of conventions each dealing with some branch of newspaper activity.

Dr. Walter Williams of the University of Missouri, Columbia, Mo., is president of the congress and Captain J. W. Nisigh of the premier's office, Sydney, will be official secretary and representative of the New South Wales government in matters connected with the congress.

GERMANS IN VENEZUELA.

There are Renewed Evidences of Their Activity There.

San Juan, Porto Rico, Sept. 14 (Correspondence of the Associated Press).—American travelers who have recently arrived here from Venezuela report that there are open evidences of renewed German activity in that country. Just how they have come no one seems to know, but many Germans have been arriving in Venezuela during the last few months and German commercial travelers are reported particularly active. They represent all lines of industry. As one man who returned from Venezuela last week explained it:

"If I want to sell clothing at \$15 a suit to the Venezuelan merchants, a German salesman has something just as good for \$12 or \$13. If I offer 90 days' or six months' credit the German offers six months or a year. In every line it is the same way. They are offering to take orders for all classes of manufactured goods and promise prompt delivery. Many Germans are arriving in Venezuela evidently prepared to settle there and make it their homes."

Many firms, who controlled lines of business in Venezuela before the war, commenced to engage actively in business immediately after the signing of the armistice. Firms blacklisted during the war found no great difficulty, it is said, in engaging in both import and export business.

FIRE DEFIES ALL OPPOSITION

But the Spectacular Blaze at
Long Island City Is Burn-
ing Itself Out

OVER 50 PERSONS
HAVE BEEN HURT

And the Property Damage
Will Run into Millions
of Dollars

New York, Sept. 15.—The spectacular oil fire, which since Saturday afternoon has raged at the plant of the Sone & Fleming company in Long Island City, with injury to more than 50 persons and property damage running into the millions, was gradually burning itself out to-day.

Although officials of the fire department said that the blaze was well under control, it still was burning briskly and promised to continue for two or three days, until the thousands of gallons of oil in the path of the flames have been consumed.

Herbert L. Pratt of the Standard Oil company, of which the Sone & Fleming plant is a subsidiary, said after a survey of the ruins that the property damage would be more than \$2,000,000. About \$500,000 of this damage had to be represented by oil consumed in the fire. As nearly as could be ascertained with the fire still raging, 36 of the company's large oil tanks have been destroyed.

There is a possibility that Burlington cannot make strike again, the arbitration committee of citizens, which has been investigating the wages paid throughout New England, not being yet ready to meet the carmen. The latter have given the committee until Sept. 17, when, if the report offered does not suit them, they will walk out.

Miss Mary R. Stevens, for two years connected with the editorial staff of the Rutland Herald, and Lewis M. Draw, cashier of the First National bank of Fair Haven, were married Friday at the home of the bride's parents in Rutland. They will reside in Fair Haven.

NEW WAY of Heating \$114

World's Greatest Invention

Simple way of heating a four-room cottage by IDEAL-Arcola Radiator-Boiler and three AMERICAN Radiators

Easy heating of a cellarless office building by our IDEAL-Arcola Radiator-Boiler and two AMERICAN Radiators

New IDEAL-Arcola Radiator-Boiler

Puts IDEAL Hot Water Heating comfort at low cost in cottages and stores, with or without cellars; heats each flat separately, etc.

The IDEAL-Arcola takes the place of a parlor stove. But a stove wastes much of its heat up the chimney, whereas the IDEAL-Arcola conveys its heat by hot water circulation through pipe-connected AMERICAN Radiators stationed in the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is therefore made useful in keeping ALL the rooms uniformly, healthfully warm. There is no coal-waste. The IDEAL-Arcola does not rust out or wear out—will outlast the building—is a genuine, permanent investment!

Shipped complete ready for immediate operation

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. The Arcola is placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm other rooms.

Cleanly heating—healthful heating—
free from fire-risk

Unlike stoves, there are no coal-gas leaks into the living-rooms. The IDEAL-Arcola delivers soft, radiant warmth—not the dry, burnt-out atmosphere of stove heating. There is no fire-risk to building—no danger to children—burns hard or soft coal or coke—fire lasts for hours! The Arcola changes a house into a cozy home! Buy it NOW, at today's attractive figure.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Write today

HORNE AND LORD CECIL ARE FOREMOST FIGURES

Of the British Parliament, According to
the Opinion of the Masses in Lon-
don—Horne in Particular Has
Won Approval of the People.

London, Sept. 14 (Correspondence of the Associated Press).—In the opinion of the man in the street, the outstanding figures of Parliament are Sir Robert Horne, labor minister, and Lord Robert Cecil, who sits on one of the green leather benches in the House as an ordinary member.

Sir Robert Horne, whose character may best be described by the nickname his friends have given him, "Hail Smiling Horne," gave up a law practice worth \$40,000 a year at the Scottish bar to become a member of the government at \$10,000. He won the confidence of labor in numerous conferences, and recently has been responsible for the firm handling of the labor situation when apostles of "direct action" gained the upper hand among organized workmen.

Lord Robert Cecil is described by his friends as an "old member in a new coat," and since his return from the Paris peace conference has been adding almost daily to his reputation. They call him the "mystery man" of Parliament. Once looked upon as the type of Tory aristocrat in politics, he now seems ready to outdo the democrats in democracy. Among his followers is a large band of enthusiastic young Unionists, and the labor men hail him as one after their own heart. Everybody is

asking what party will he lead, which way will he turn.

Two other men are pointed out as having added much to their reputations—Sir Donald Maclean and J. R. Clynes. Sir Donald led the lone little band of independent liberals through the trying times of the session. At times he showed such qualities of leadership that some of the correspondents are of the opinion that he has given full hope to a party which no longer desires the return of Mr. Asquith to its leadership.

Mr. Clynes made a reputation as food controller before entering the House, and since that time has been looked upon by the labor party as their most reliable leader.

At the national convention of insurance commissioners in Hartford, Conn., last week, Joseph G. Brown of Montpelier was elected president. Joseph Brown of Virginia will continue as secretary and treasurer. The executive committee will be Jesse S. Phillips, superintendent of insurance for New York state, as chairman, and C. W. Fairchild of Denver, Col., Thomas B. Donaldson of Pennsylvania and R. B. Forsythe of Wyoming.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's
Vegetable Compound
Is Prepared For
Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's ills.

Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

MAJOR L. S. TILLOTSON RETIRED.

As an Officer of the Vermont Military Department.

The following general orders have been issued from the office of the Vermont adjutant general:

1. Major Lee S. Tillotson is hereby, at his own request, placed upon the retired list with the rank of brigadier general.

2. General Tillotson's military record is as follows:

Enrolled as principal musician 1st Vermont infantry, Nov. 8, 1898.

He was commissioned 1st lieutenant, Co. B, 1st infantry, Nov. 26, 1901, and captain same company, Jan. 13, 1903.

Major 1st infantry Nov. 2, 1906, and lieutenant colonel, 1st infantry, Aug. 13, 1908.

Appointed the adjutant general of Vermont with rank of brigadier general April 25, 1910.

Elected same office by the legislature of 1910, 1912, 1915 and 1917.

Commissioned major adjutant general's department, National Guard, under the act of June 3, 1916, Sept. 23, 1917.

Entered federal service Nov. 26, 1917, as major adjutant general's department.

Left the United States for France on Feb. 18, 1918, serving as adjutant of the 89th division until May 16, 1918, and afterwards as assistant adjutant general, headquarters S. O. S. A. E. F. returning to the United States Jan. 19, 1919.

Honorably discharged United States army April 30, 1919, having had over 20 years continuous service in the National Guard and the United States army.

General Tillotson's administration of the office of adjutant general of Vermont was marked by progressiveness in all matters pertaining to the National Guard. He was always quick to recognize the value of federal aid and to cooperate with the war department in the betterment of National Guard conditions. Under his administration the National Guard was twice called into federal service and was upon both occasions among the first troops in the country to be mobilized, equipped and ready for service.

By command of Governor Clement,
Herbert T. Johnson,
The Adjutant General.

FOCH SEEKS SON'S BODY.

Has Asked Belgian Government to Make a Search.

Paris, Sept. 4 (Correspondence of the Associated Press).—Marshal Foch has recently asked the Belgian government to have a search made for the body of his son, who was killed in August, 1914, in the Belgian Ardennes.

Marshal Foch has religiously refrained from mentioning his lost son, and few knew that the younger Foch was killed early in the war.

COMPENSATION ABOUT DOUBLED

House Passes Bill Greatly Increasing the
Grants to Disabled Veterans and
Members of Their Families.

Washington, Sept. 15.—Increases practically doubling the monthly compensation originally provided by the war risk insurance act to disabled soldiers and sailors and members of their families, were passed unanimously Saturday by the House, with other amendments to the act liberalizing its provisions and eliminating red tape in administering the law.

Among the changes in compensation payments provided for total temporary disability are that a single man shall receive \$80 a month, instead of \$30; a man with a wife, or a child, \$90 instead of \$45; one with a wife and one child, \$95 instead of \$55; and the man with a wife and two children or more, \$100, instead of \$65.

Disabilities, it is provided, shall also be rated as partial and temporary, total and permanent, and partial and permanent, for which the monthly compensation shall be a percentage of the degree of reduction in earning capacity.

Automatic insurance provisions of the law are extended to cover all men, except those who actually refused to apply for insurance, who were finally accepted for service during the war.

The permitted class of beneficiaries is enlarged to include uncles, aunts, nephews, nieces, brothers-in-law and sisters-in-law, while the definition of parent is extended to persons who stood in loco parentis to a service man.

The American Legion's plan for two years' free insurance to present holders of life policies in war risk insurance was defeated in the House on parliamentary procedure. It probably will be taken up in another way.
